SKOHL – YOUR PARTNER TO PERFECT BEER SERVICES

MISSION IMPOSSIBLE MADE POSSIBLE

We're on a quest to crush those pesky beer lines faster than you can say "CHEERS!" Fuelled by technology and innovation, we're revolutionizing the beer tap, slingin' delicious brews with lightning speed. So ditch the wait, get back to high-fivin' your friends, and experience the future of beer service.

THE SKOHL PROMISE

Imagine a world where beer lines and boring taps are a distant memory, replaced by a symphony of perfectly poured pints and happy faces. **That's the Skohl promise.**

Whether you're throwing a stadium-sized spectacle or running a bustling bar, Skohl has the taps covered. We're not just about serving beer; we're about crafting unforgettable experiences, one perfectly poured pint at a time.

From Friday night hangouts to crowds of 100,000 thirsty fans, we've got the firepower to keep the good times flowing. Craft beers, lagers, IPAs -

whatever your brew, we pour it straight from the keg, ensuring maximum freshness, flavour and off course ice cold.

Our high-tech beer taps aren't just fast, they're smart too. Real-time data helps you manage inventory and keep the lines moving, while our dazzling LED skins turn your taps into a mesmerizing brand showcase.

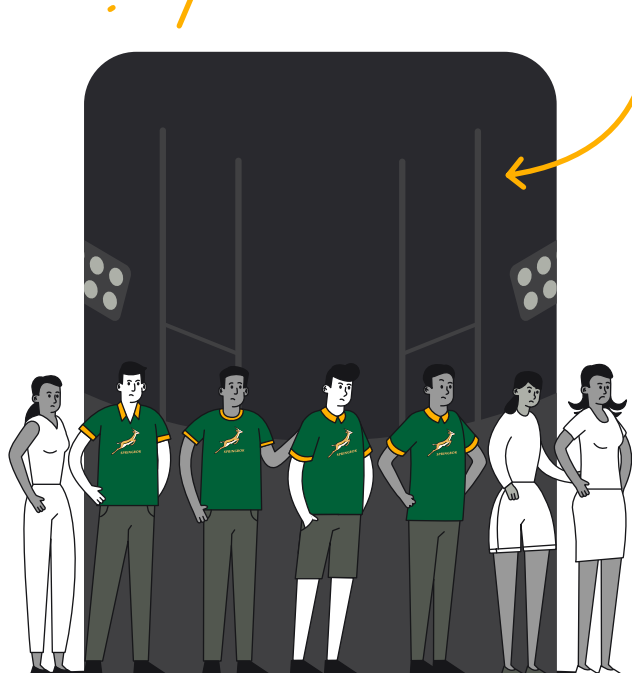

We're not just evolving the beer tap; we're elevating the entire beer experience. So, whether you're a seasoned event pro or a bar owner, let Skohl be your partner in pouring perfection.

Sure, taps and cans have quenched thirsts for ages, but let's face it, those long lines and lukewarm brews just ain't cutting it anymore. The crowd's getting restless, and their taste buds are demanding more.

The signals are there, haven't you heard them?

"TRY! TRY! TRY!" echoes through the stadium, but Eben, Bongsi, Cheslin, and Malcolm can only groan. Stuck in the beer line, they're missing the action, their hopes of a cold one fading faster than the foam on a warm beer.

Finally, they score their brews - lukewarm and half-flat. Now the struggle to carry them back without spilling? Forget about it. And wait, they're one short for Rassie? Back to the line of doom!

Boys' night out, game plan: charm the ladies, enjoy some brews. Kevin and Thabo hit the bar, but it's a tap-ocalypse! A hundred fancy handles, each screaming for attention. But these guys have their priorities straight.

Eyes locked on the prize (those ladies in the corner), they bypass the tap-mania and go straight for the old classic. It's the brew that's always delivered, the one they know won't let them down. (Plus, that giant LED billboard on the way in the Uber was a subtle reminder of the old classic).

Forget the hassle of handling kegs and taps! We've got your beer needs covered with our Beer-as-a-Service model, offering two awesome routes to pure beer bliss. Think of it as your all-inclusive beer party package: we take care of the entire beer service, from setup to cleanup, so you can focus on throwing the bash of the century. Cheers to less stress and more fun!

While the brewmasters load up the kegs, let's talk about turning your event into a beer lover's paradise. Our customizable solutions ensure your guests will be boasting about the best beer experience in town.

BEERJET™

1

Beerjet is a revolution in automatic beer dispensing. This innovative system boasts a variety of tap options, ranging from 2 to 6 parallel dispensing taps, capable of pouring an impressive **2000 beers per hour per unit**.

2

Each unit features an automated tilting mechanism ensuring the perfect pour every time, with adjustable height to accommodate various cup sizes.

3

Smart onboard electronics manage the machine's operation and **track key data like flow rates and units dispensed**, while internet connectivity allows for remote efficiency monitoring.

4

An integrated, externally chilled tank system keeps the beer perfectly cool, and the ability to **connect 2-12 kegs or tanks simultaneously** guarantees an uninterrupted supply, even during keg changes.

5

Whether you're hosting a small gathering or a massive event, our fixed and mobile pourpoint options provide the flexibility and efficiency to meet your unique needs.

We're not just providing Beerjets, we're your partners in pouring success. Our fixed installations and full maintenance lease options ensure you have the beer firepower you need, whenever you need it.

Beer Variety: Pour any beer style you crave, one delicious keg at a time.

Multi-Tap Magic: Serve up to 6 beers simultaneously, keeping the options flowing.

Your Choice, Your Control: Switch between automatic and manual operation for ultimate pouring flexibility.

Squeaky Clean, Always: Automated hygienic cleaning keeps your system sparkling and your beer tasting its best.

Stay Connected: Constant internet connectivity ensures remote monitoring and peak performance.

Upgrade Your Experience: Choose from a range of add-ons to customize your Beerjet and elevate your pouring game.

FREQUENTLY ASKED QUESTIONS (FAQ)

Customisation & Branding

? Can the Beerjet machines be customized with our branding or event theme?

Absolutely! We can kit our machines out to match your vibe perfectly.

? Do you offer options for personalized cups or other accessories?

You bet! We can brand all our gear to make sure your event looks awesome and unique to your specifications.

Technical & Support

? What kind of maintenance is required for the Beerjet machines?

Just a quick rinse now and then to keep things clean. We'll handle the rest with regular check-ups from our tech team.

? Do you offer on-site technical support during events?

Yes! We'll have a tech crew on standby at your event, ready to swoop in and save the day if anything acts up."

Beer Selection & Logistics

? What types of beer can be served through the Beerjet system?

Pretty much any beer you can dream of, as long as it's in a keg or tank that fits our system. Just keep in mind, each machine can only handle one type of beer at a time.

? Do you assist with sourcing and delivering kegs for events?

Absolutely! We'll take care of the whole beer supply chain, from sourcing to delivery. That's the beauty of our Beer-as-a-Service deal.

? Can we connect our own kegs to the system?

No problem! As long as your kegs have the right connections, we can get them flowing through our system.

Business & Partnership Related

? Do you offer discounts for long-term rentals or multiple events?

Absolutely! We've got some awesome deals for folks who want to partner up with us for the long haul.

? Can we create a custom package tailored to our specific needs?

Definitely! We'll work with you to craft the perfect beer experience for your event.

? Can we purchase a Beerjet Machine?

Not at the moment. We're all about making things easy, so we handle the maintenance and service. You just focus on the fun.

? Are the Beerjet Machines licensed by the Original Equipment Manufacturer (OEM)?

Yes, Skohl is the official licensed partner for Beerjet in Africa and is authorised to operate the machines in the region of authority.

Safety & Hygiene

? How do you ensure the cleanliness and sanitation of the Beerjet machines?

We give each machine a thorough automatic flush before and after every event, so you know it's sparkling clean. We're super serious about hygiene – our tech team keeps a close eye on everything.

Insurance & Liability

? Do you carry insurance to cover any potential damages or accidents during events?

We've got our machines and crew fully covered, so you don't have to worry about that. Just a heads up, though, you're responsible for any other stuff that might happen at your event. We can't be held liable for any unexpected hiccups."

Environmental Impact

? What steps does Skohl take to minimize its environmental footprint?

Our fancy tech makes sure every pour is perfect, so there's way less beer wasted down the drain.

We're ditching those wasteful cans altogether. It's all about kegs and tanks for us, which means way less trash."

Plus, we're all about using eco-friendly materials for our cups and cases. So, you can party guilt-free!"
